FEATURING SOME OF THE WORLD'S MOST PRESTIGIOUS MARQUES, SUCH AS FERRARI, LAMBORGHINI AND MCLAREN TO NAME JUST A FEW!

WEEKEND ADMISSION £30 = SUNDAY ADMISSION (MAIN RACEDAY) £22 = CHILDREN UNDER 13 FREE

MOTORSPORT VISION RACING

Welcome to Snetterton for third running of the 12 Heures du Norfolk! The Easter weekend

WELCOME

marked the start of circuit racing this year, and although we are looking forward to a return to normality later in the season, for now we resume with similar

COVID restrictions in place as we had last year. In line with government and Motorsport UK guidelines, both MSVR and MSV have put in place a raft of measures to minimise the risk of resuming our sporting activities, and these are being constantly reviewed as the situation evolves; more information and advice can be found later in this digital event programme. You will also find updated signage and guidance around the venue. Your cooperation in adhering to these policies is appreciated – and, indeed, vital – if we are to continue running events for the sport we all love.

This weekend's headline series, EnduroKa, is organised in conjunction with MSVR's sister department, MSV Trackdays (MSVT), and proved a big hit from launch in 2019, with over twenty cars taking part in the inaugural race at Donington Park that April – rising to around 50 cars for this 2021's opening round. It was designed from the outset to be a fair and fun way for teams of friends to get involved in grass roots motorsport; trophies up for grabs include the "Dagenham Dustbin" award for the best presented Ka as voted for by the marshals! The series features a number of endurance races at the best circuits in the UK, and this Sunday's race is the longest on the calendar with around 45 cars expected to take the start. These pocket racers will be pushed to the very limit around the fast Norfolk circuit!

We have a full programme of racing in store on Saturday too – the top tier of MSVT's race series is the SuperCup championship. Running their familiar 25 minute qualifying/45 minute pit stop race format, the more powerful Class S and Class A cars produce some seriously quick lap times. Expect them to really stretch their legs down the long straights of Snetterton's 200 circuit! The Lotus Cup UK Speed Championship visits its 'home' round just a few miles from the Lotus HQ at Hethel. A sprint championship rather than a race championship, the drivers set off one at a time and aim to set the fastest individual time around the course. Sprinting is a great way to get started in motorsport so do have a look at the championship's website if you're interested in getting involved.

This weekend sees the launch of a brand new Snetterton-based series, Uncle Luke's Snetterton Saloons. Organised by Project 8 Racing, the series will run exclusively at the circuit and entries are encouraged from competitors in the East Anglia/Suffolk region – most Motorsport UK-compliant cars are welcome!

Our guests this weekend are the Gaz Shocks 116 Trophy, with a one and a half hour endurance on Saturday evening. The cars are incredibly closely matched, with minimal modifications allowed and control tyres so team strategy could be the key to victory!

Motorsport in the UK simply couldn't happen without the invaluable work of the many volunteer marshals up and down the country. The "orange army" give up their time to ensure we can put on these events and they keep the drivers safe. I would like to offer the first thanks of many to all the marshals and volunteer officials for their help this weekend. As a thank you, one lucky marshal will win a PalmerSport Formula 3000 drive at MSV's Bedford Autodrome.

I hope you enjoy the racing this weekend and look forward to seeing you again when we return to Snetterton in a couple of weeks (10/11 July) with the Ferrari Challenge UK. For live timing, all the latest news and our full calendar please visit the MSVR website at www.msvracing.com.

UNCLE LUKE'S SNETTERTON SALOONS

RACE NUMBER & DURATION RACE1(40 MINS)

TECH TALK

New for 2021, the Snetterton Saloons, sponsored by Uncle Luke's Sign & Sticker Shop, is an exciting and competitive series focussing on local talent competing for class wins and team tactics to secure the East Anglian County Cup

Competitors are split into classes, based on car performance; all races include a mandatory pit stop; cars can have one or two drivers.

Saturdays entry for this inaugural round, supported by Bruha Brewing in Eye, Suffolk; ranges from the mighty Aston Martin GT4 of Jason Pelosi (Essex), to the super handling BMW E30 of Graham Collison (Norfolk).

Look out for the giant-slaving classics of Martin Reynolds (Ford Escort Mk2, Norfolk) & Colin Claxton (Ford Escort Mk1, Norfolk), battling head to head with the M3's and Ford Mustang Cobra in the hands of Chris Tilly and Alan Lee (Suffolk)

The Suffolk entry is also represented by the Class A entry of Karl Cattliff in his BMW E90 M3; Stephen Pearson in his Class B, S54 powered BMW E36 M3 and the "Course Car" BMW E90 of Frank Rodber in Class C.

Norfolk dominates Class C, with a range of Honda Civic's from Luke Allen, Michael Williamson, Oliver Elmer, Chris Earle and Shaun Green; joined by the Clio of Ray Honeybone and the Peugeot 306 Rallye of Miles Moseley & Carl Chambers.

Class A should provide a fascinating battle between Pelosi's Aston GT4 and the BMW's ranging from Kevin Bird's (out of region) M3 GT4 to Edward Leigh's (Essex) E36 M3; with Stephen ScottDunwoodie's (Bedfordshire) E46 M3 bridging the generation gap; plus Catliff's E90 M3 and the sleek M235i Cup car of Andie Stokoe (out of region).

Longstanding rivalry should provide an exciting battle between Nigel Innes (Essex) in his rapid and beautifully prepared E36 M3 and Snetterton stalwart Stephen Pearson. Stephen started his racing career at the circuit in (previously Rick Kerry's) BMW E34 M5. In addition to the previously mentioned Class B cars of Reynolds, Claxton, Tilly & Lee; we have Simon Donoghue representing Essex in his BMW E36 M3 and James Mumbray for Bedfordshire in his BMW 330.

Also representing Bedfordshire is seasoned racer Neil Bray in his Class C Renault Clio, whilst the pairing of Fred and Ashley Hornigold will be double-driving the MGZR 170 in Class D; alongside newcomer Mark Periam (out of region) in a VW Golf Mk2

Mandatory Pit-Stops will provide a challenge to both drivers and spectators; with a 2 minute 'entry-to-exit' minimum time and heavy penalties for 'shortstopping'. Egg-Timers at the ready !!

Single drivers can remain strapped into their car; whilst the double driving pairings frantically swap out & in as seamlessly as possible.

Future Rounds in 2021 will be held on 19th September (British Truck Racing Championship weekend) and 2nd October (MSVR Club Car Championship weekend)

Let the battle of the Counties commence!

Sprinting is a high-speed discipline in which drivers take turns to set a time around a lap of a race circuit or a set course, with the fastest times determining the results. Cars start singly and are timed by electronic equipment accurate to 100th of a second. Sprints are typically held on racing circuits and disused airfields, with venues spread right across the country.

Competitors are given one or two practice runs before the competition proper starts. Usually you will get two or three runs against the clock, with your best time counting in the final results. The best part about Sprinting is that if you get your first run wrong you still have a chance of making amends on later runs.

Road going cars are eligible to

participate, and the vast majority of competitors will not need to fit a roll cage, fire extinguisher or harness to take part. Events take place over just a single day, avoiding the need to book accommodation.

The MSVT SuperCup returns to the track for its third race event of 2021 this weekend, with a standalone grid of racing cars taking to the Snetterton 200 circuit on Saturday.

The SuperCup expands upon MSVT's successful Trackday Championship and sits at the top of the organisation's racing ladder with cars from its top three classes.

The entire MSVT racing ladder has been crafted to allow drivers to graduate from track day participation to ARDS tests and ultimately on-track competition. There's a clear path in place from the entry level Trackday Championship to the top classes in the SuperCup and you can see that clearly this weekend. There's also a great route into long distance racing with EnduroKA, which you can also see in action this weekend.

The race event will comprise a 30-minute qualifying session, and a 45-minute race on one day, with a mandatory two-minute pit stop for each team. This allows entrants to share a driving with a friend – or compete solo. And, like all championships and series falling under the MSVT umbrella, there is a firm emphasis on fun and value, promoting a competitive yet friendly environment for its entrants.

After this weekend, the SuperCup heads to Cadwell Park ahead of a combined grid with the Trackday Trophy at Silverstone in August. The season finale will take place on the Brands Hatch Indy circuit in November.

Round 3 of the 116Trophy promises to be a hotly fought contest! RThe high speed Snetterton 200 circuit is the perfect venue for the more powerful 2021 spec cars. As always with the 116Trophy, we expect close racing throughout the field.

The ninety minute race will feature two mandatory pit stops which must be taken in the pit stop window which opens after fifteen minutes and closes with fifteen minutes of the race to run. Strategy will prove pivotal with teams needing to be ready to change tact at any point should a safety car be scrambled.

As the 116Trophy features success

penalties based on the top three finishing positions at the previous round, several teams must serve additional time during either pit stop. This weekend's epic follows on from the recent five-hour and six-hour races at Donington Park and Cadwell Park respectively. This is the first of two marquee weekends for the popular low cost endurance series, with the Indy KA 500 at Brands Hatch in November the other. Other events between now and then will include a sprint outing at the same Kent venue and a five-hour race at Oulton Park.

All of the cars are Ford KA hatchbacks, built between 2002 and 2008, offering an affordable base platform, with standardised parts from Burton Power. And the format's success is clear to see, with a near capacity grid set to take to the track on Saturday. attracted a near-capacity entry.
